

KHALED AHMED EZZAT

IT Graduate | Full-Stack Developer (.NET & Angular) | Networking (CCNA) | Database Specialist

B.Sc. in Information Technology — Faculty of Computers and Information, South Valley University

+20 106 256 8365 • khaled.pro.963@gmail.com • [LinkedIn](#) • [GitHub](#) • Qena, Egypt

PROFESSIONAL SUMMARY

B.Sc. graduate of Information Technology from the Faculty of Computers and Information, South Valley University, with a broad, hands-on technical foundation spanning networking, databases, and full-stack web development. Studied networking in depth at university (Networks I & II) and independently through the CCNA curriculum (self-study via Cisco materials and YouTube), applying that knowledge in academic Cisco Packet Tracer projects covering routing, switching, and LAN design. Completed ITI's 630-hour Full Stack Web & Generative AI Development track using .NET, gaining strong practical experience in Angular/TypeScript frontend development, ASP.NET Core Web API backend development, and both relational database systems (SQL Server, MySQL). Comfortable moving across the full technology stack — from network infrastructure to database design to building and shipping complete web applications.

TECHNICAL SKILLS

Networking	Routing & Switching, LAN Design, IP Addressing & Subnetting, VLAN Configuration, Static & Dynamic Routing, Cisco Packet Tracer, Network Troubleshooting, Cloud Computing Fundamentals — CCNA curriculum (self-studied)
Databases	SQL Server, MySQL, Entity Framework Core, Relational Database Design, T-SQL, Data Modeling
Frontend	Angular, TypeScript, Reactive Forms, Localization (i18n), JavaScript (ES6+), HTML5, CSS3, Bootstrap
Backend	C#, .NET Core, ASP.NET Core Web API, REST APIs, JWT Authentication
AI / GenAI	Generative AI fundamentals (ITI track), HCIA-AI (Huawei / NTI)
Other Languages	Node.js, Python (working knowledge)
Tools	Git, GitHub, Visual Studio, VS Code
Soft Skills	Problem Solving, Critical Thinking, Communication, Attention to Detail, Structured Thinking, Adaptability

EDUCATION

Bachelor of Science (B.Sc.) – Information Technology

2021 – 2025

Faculty of Computers and Information, South Valley University, Qena — IT Department

- Completed in-depth coursework in Networks I & II — routing, switching, network design, and cloud computing fundamentals
- Graduation Project: Automatic Irrigation System — Grade: A+

Full Stack Web & Generative AI Development using .NET

Information Technology Institute (ITI) – Qena Branch | 630 Hours | Jan – Jun 2026

- In-depth, hands-on training covering Angular, TypeScript, ASP.NET Core Web API, SQL Server, and Generative AI

CERTIFICATIONS & SELF-DIRECTED LEARNING

CCNA Curriculum (Self-Study)

- Studied independently via online resources (YouTube, Cisco materials), covering routing, switching, and network fundamentals

HCIA-AI

- Huawei / National Telecommunications Institute (NTI)

PROJECTS

Arena – AI-Powered Gym Management System

ITI Graduation Project

Angular · TypeScript · Reactive Forms · i18n · ASP.NET Core Web API · SQL Server · JWT

- Architected a full-stack platform with JWT authentication, QR-based check-in, and payment processing

- Built client-facing and admin Angular dashboards for member registration, subscription management, and trainer scheduling
- Implemented Angular Reactive Forms for structured, validated user input across the platform
- Implemented Angular localization (i18n) for full Arabic/English bilingual support
- Integrated the Angular frontend with a secure ASP.NET Core Web API backend using JWT authentication

.NET Backend Developer – E-commerce Project

Feb 2026

ITI Training Project | C# · .NET Core · SQL Server · EF Core

- Built RESTful API endpoints across Orders, Products, Categories, and Authentication modules

University Networking Labs

Academic Coursework

Cisco Packet Tracer

- Designed and simulated LAN topologies covering IP addressing/subnetting, static and dynamic routing, VLAN configuration, and switch/router setup
- Practiced troubleshooting connectivity issues and validating network configurations in simulated lab environments

FinishX – Corporate Website (Freelance)

2025 – 2026

Angular | Mostaqel Platform | Remote

- Built an Angular-based corporate website for a Saudi client — a second branch site for the same client group

ADDITIONAL EXPERIENCE

Programming Instructor – Game Development

Jun 2026 – Present

iSchool | Full-time

- Teach programming and game development to students across different age groups, adapting explanations and pacing to each learner's level
- Break down complex technical concepts into simple, hands-on, age-appropriate lessons
- Built strong patience, communication, and classroom management skills through daily student engagement

LANGUAGES

Arabic: Native | English: Fluent (B2)
